SUPPLEMENTAL INFORMATION:

I. Notice of the Application for Expansion

The Occupational Safety and Health Administration is providing notice that TUVPSG is applying for expansion of its current recognition as an NRTL. TUVPSG requests the addition of one recognized testing and certification site to its NRTL scope of recognition.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified in Title 29, Code of Federal Regulations, Section 1910.7 (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition, and is not a delegation or grant of government authority. Recognition enables employers

to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The Agency processes applications by an NRTL for initial recognition, and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the Federal Register in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including TUVPSG, which details the NRTL's scope of recognition. These pages are available from the OSHA web site at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

Each NRTL's scope of recognition has three elements: (1) the type of products the NRTL may test, with each type specified by its applicable test standard; (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope; and (3) the supplemental program(s) that the NRTL may use. Each of these elements allows the NRTL to rely on other parties to perform activities necessary for product testing and certification.

TUVPSG currently has one facility (site) recognized by OSHA for product testing and certification, with its headquarters located at: TÜV SÜD Product Services GmbH, Ridlerstrasse 65, Munich, Germany D-80339. A complete list of TUVPSG sites recognized by OSHA is available at <http://www.osha.gov/dts/otpc/nrtl/tuvpsg.html>.

II. General Background on the Application

TUVPSG submitted an application, dated March 27, 2013 (Exhibit 1), to expand its recognition to include the addition of one recognized testing and certification site located at: TÜV SÜD Product Services GmbH, Daimlerstrasse 11, Garching, Germany D-85748. OSHA staff performed a detailed analysis of the application and other pertinent information. OSHA staff also performed an on-site review of TUVPSG's testing facilities on April 26, 2013, in which the assessors found some nonconformances with the requirements of 29 CFR 1910.7. TUVPSG addressed these issues sufficiently, and OSHA staff preliminarily determined that OSHA should grant the application.

III. Preliminary Finding on the Application

TUVPSG submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file and its detailed on-site assessment indicate that TUVPSG can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of the one site detailed above for NRTL testing and certification. This preliminary finding does not constitute an interim or temporary approval of TUVPSG's application.

OSHA welcomes public comment as to whether TUVPSG meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in TUVPSG's

application, including pertinent documents (e.g., exhibits) and all submitted comments, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2005-0022.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant TUVPSG's application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of this final decision in the Federal Register.

IV. Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue, NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on May 21, 2014.

David Michaels,
Assistant Secretary of Labor for Occupational Safety and Health.
